

## **Book Review**

Copyright: interpreting the law for libraries, archives and information services is one of the best publications available on the subject at present. The book is very useful to develop the understanding about the subject. It is written in question and answer form, which makes easy for the readers to understand it. The arrangement of book is according to type material that comes under the preview of copyright. The first few sections are dealing with definition and law, coverage of copyright, rights and limitations. There after an each type of material is discussed. It is interesting to find discussions on databases, computer programs, websites and electronic world. . It also gives information on Licensing schemes and licences. It mainly deals with the UK Copyright Act.

The book is truly informative to all the professionals engaged in libraries, archives and information services. It helps to clear several doubts which usually have in most of the librarians mind and develops a confidence while rendering a job. It can use as a general copyright query solving handbook. The index of book is very comprehensive and pinpoint towards the topic. It is a good addition in a collection of any type of library.
